**Subject:** Meeting request with Microsoft' CVP on Environmental Omnibus - 29th October

Dear Mr [REDACTED]  
Dear Ms [REDACTED]

My name is [REDACTED], and I lead Microsoft's EU Energy and Sustainability Policy. I am reaching out in advance of a visit to Brussels by our [REDACTED], who oversees Infrastructure Legal Affairs and supports our datacenter business globally.

**[REDACTED] will be in Brussels on 29 October and would be grateful for the opportunity to meet with you to discuss the Environmental Omnibus initiative.** This file has become a strategic priority for us, as we believe it holds significant potential to bring clarity and efficiency to site development permitting—particularly in relation to the Industrial Emissions Directive and the Environmental Impact Assessment Directive.

In light of the European Commission's ambition to triple AI capacity in the region by 2030, we see the streamlining of permitting procedures as a critical enabler. Together with our teams on the ground, we have developed a set of concrete proposals that [REDACTED] would welcome the opportunity to share with you, and to hear your reflections on.

Thank you in advance for your time and consideration. We look forward to your feedback and hope a meeting can be arranged at your convenience.

Kind regards,  
[REDACTED]

Global Energy, Connectivity & Sustainability Team
